This certificate:

- **confirms that the following work has been carried out by a CORGI Registered Installer** ☑
- **is your Installers certification that:**
  - **the work detailed below was carried out in accordance with the current Gas Safety Regulations** ☑
  - **the work detailed below is compliant with Section 4 and 7 of the Building Regulations in England and Wales** ☐
- **confirms that your Installer is a member of CORGI's Part P Self-Certification Scheme for Electrical Work** ☐

Since April 2005 it has been a Government requirement for homeowners in England and Wales to notify Local Building Control of any relevant building work undertaken in their property either directly or through a third party who is a member of a competent persons scheme.

From January 2007, it will be a requirement for all homeowners to be able to provide evidence of any gas and building work undertaken in their property in order to sell the property.

CORGI has been notified that the installation work detailed below has been carried out by a CORGI Registered Installer at the following address:

<Property Address>

You may need to notify Local Building Control directly of any relevant work undertaken.

CORGI periodically inspects the work of every Registed Installer to ensure gas safety standards are maintained.
Should your property be selected for inspection your co-operation in gaining access to inspect the work will be appreciated.

Disclaimer: Please note that the contract for the work carried out is between yourself and the chosen installing business. CORGI can take no responsibility for the standard of work received. However, if you have any concerns regarding gas safety, please call CORGI on 0870 401 2300.
